### 13 Step up: We need Brian! (nach SB Unit 5)

a) *Read the story about Brian.*

Brian was not a very good pupil. He worked a lot, but he found most subjects very difficult. Brian's teachers often got angry with him because they thought he did not work enough. The only teacher who was happy with Brian's work was Mrs Peters, the computer teacher. She was always surprised that Brian learned so quickly. Then last Wednesday Brian surprised everybody.

Sam, one of Brian's friends, was in the headmaster's office at ten o'clock. Suddenly the school secretary came into the room.

"Oh, Mr Brooks, come quickly, something terrible is happening," the secretary shouted. "It's the computer, Mr Brooks! It has got some kind of virus, and this virus is deleting everything we have!"

Mr Brooks ran into the secretary's office.

"Get Mrs Peters," he said.

"She's not here! She's ill this week," the secretary said.

"What about Brian Woods?" Sam said.

"What? Brian Woods! Is he good with computers?"

Mr Brooks was not very sure.

"He's not good at a lot of subjects, but he's great with computers," Sam said.

"OK, Sam. Find Brian," Mr Brooks agreed.

Five minutes later Brian was in front of the school computer. He worked very quickly. Suddenly the computer stopped deleting information.

"I don't know how you did it, Brian, but you are fantastic." Mr Brooks looked very happy now.

"I think you have a great future in computers."

Brian looked at Mr Brooks, "Thank you, and I hope I do, because computers are the only thing I understand."
